EYE OF AFRICA

Persan's Dokumacı brand introduces its new collection, **Eye of Africa**, a unique line inspired by African culture and tribal textiles. **Eye of Africa** seamlessly blends traditional touches with modern design, bringing not just aesthetics but also the whispers of an ancient culture into living spaces.

Each piece in the **Eye of Africa Collection** transforms into an inspiring story for warm and sophisticated interiors, blending the traces of craftsmanship and the unique patterns of nature with contemporary lines.

The collection highlights labyrinth-like linear patterns, intertwined leaf motifs, embossed stripes, and cubic forms. While plain fabrics with soft textures reflect the elegance of natural simplicity, printed upholsteries with striking color transitions add a dynamic spirit to the collection with their batik-inspired, vibrant designs.

We invite you to visit **Persan** stores to explore the **Eye of Africa Collection** up close and feel the unique whispers of African culture.
